Dear Sir or Madam:

Re: Docket #98N-1038

I want to see a prominent label using the term "irradiated" and the radura symbol on food, if it has been so treated. The alternative terminology, "cold pasteurization" or "electronic pasteurization", is misleading. Truth in labeling is important so that consumers can make informed choices.

The labeling requirement for the word "irradiated" should not expire.

Thank you,

Joan Werner
